AVAILABLE IMMEDIATELY

Facility Manager
Cell Imaging Facility &
Nikon Imaging Center
at
Northwestern University
Feinberg School of Medicine, Chicago

The Cell Imaging Facility is looking for a candidate (Ph.D. required) to serve as the facility manager. The manager will oversee the daily operation of this prestigious imaging core. The facility manager will supervise the current staff, involve in training users, provide consultation and perform routine maintenance of our large portfolio of imaging instruments.

The ideal candidate should have a strong background in cell biology, extensive experience in multiple modalities of light microscopy (additional experience in programming is preferred), great people skills, good teaching capability, and the capacity to rapidly master new imaging technologies. *Salary is highly competitive, and partial effort in research is strongly encouraged but not required.*

Please send, via e-mail, your cover letter, curriculum vitae, and three references to:
